Bail Application - W.P. Twomey

THE BAILIFF: Even with the different information which we have here we think that the position is this: Twomey has pleaded guilty to a very serious offence here in Jersey, it is quite true that he has these personal problems at home, but then if he chooses to come to Jersey, leaving his wife and family to admittably to look for work and immediately commits an offence within a few days of coming here he really must expect the consequences. Application is refused.
