

## **PATENTS ACT 1977**

IN THE MATTER OF an application under  
Section 13(1) by Jerry G Williams in respect  
of Patent No. GB 2338736 in the name  
of Fiberspar Corporation

### **DECISION**

- 1 Following the international phase of international patent application number PCT/US98/03413, patent application number GB 9920058.6 entered the national phase in the UK and was subsequently published as GB 2338736 and proceeded to grant. The original PCT application named two inventors, Peter A Quigley and Stephen C Nolet.
- 2 Jerry G Williams has now made an application in accordance with Section 13(1) of the Act to the effect that he ought also to have been mentioned as a joint inventor.
- 3 The named inventors and the patent proprietors, Fiberspar Corporation, have confirmed in writing that they consent to Jerry G Williams being named as an additional joint inventor. I therefore conclude that the relevant parties agree that Jerry G Williams was a joint inventor.
- 4 Accordingly I find that Jerry G Williams should be mentioned as a joint inventor in the granted patent for the invention. I also direct in accordance with Rule 14(5) that an addendum slip mentioning him as a joint inventor should be prepared for the granted patent.

Dated this    day of May 2003.

**MRS S WILLIAMS**

B3 Head of Litigation Section, acting for the Comptroller
